Study 1, B=800: UCB1 vs uniform
Study 1, B=800: eps-greedy vs uniform
Study 1, B=800: Prob. matching vs uniform
Study 1, B=800: HG-UCB vs uniform
Study 1, B=4000: UCB1 vs uniform
Study 1, B=4000: eps-greedy vs uniform
Study 1, B=4000: Prob. matching vs uniform
Study 1, B=4000: HG-UCB vs uniform
Study 2, B=800: UCB1 vs random order (VND)
Study 2, B=800: eps-greedy vs random order (VND)
Study 2, B=800: Prob. matching vs random order (VND)
Study 2, B=800: HG-UCB vs random order (VND)
Study 2, B=4000: UCB1 vs random order (VND)
Study 2, B=4000: eps-greedy vs random order (VND)
Study 2, B=4000: Prob. matching vs random order (VND)
Study 2, B=4000: HG-UCB vs random order (VND)
Study 3, E1, LO: UCB1 vs uniform
Study 3, E1, LO: Prob. matching vs uniform
Study 3, E1, LO: HG-UCB vs uniform
Study 3, E1, R5: UCB1 vs uniform
Study 3, E1, R5: Prob. matching vs uniform
Study 3, E1, R5: HG-UCB vs uniform
Study 3, E2, LO: UCB1 vs uniform
Study 3, E2, LO: Prob. matching vs uniform
Study 3, E2, LO: HG-UCB vs uniform
Study 3, E2, R5: UCB1 vs uniform
Study 3, E2, R5: Prob. matching vs uniform
Study 3, E2, R5: HG-UCB vs uniform
Study 4, E1: tuned UCB1 vs uniform
Study 4, E1: tuned Prob. matching vs uniform
Study 4, E1: tuned HG-UCB vs uniform
Study 4, E2: tuned UCB1 vs uniform
Study 4, E2: tuned Prob. matching vs uniform
Study 4, E2: tuned HG-UCB vs uniform
Study 6, E1: EXP3 vs uniform
Study 6, E1: Thompson vs uniform
Study 6, E1: SW-UCB vs uniform
Study 6, E1: Adaptive pursuit vs uniform
Study 6, E1: Efficiency UCB (C=1) vs uniform
Study 6, E1: Efficiency UCB (C=2) vs uniform
Study 6, E1: Contextual TS vs uniform
Study 6, E1: Contextual TS (efficiency) vs uniform
Study 6, E2: EXP3 vs uniform
Study 6, E2: Thompson vs uniform
Study 6, E2: SW-UCB vs uniform
Study 6, E2: Adaptive pursuit vs uniform
Study 6, E2: Efficiency UCB (C=1) vs uniform
Study 6, E2: Efficiency UCB (C=2) vs uniform
Study 6, E2: Contextual TS vs uniform
Study 6, E2: Contextual TS (efficiency) vs uniform
